We are happy to announce the publication of another letter from the dis insulated Hugarian on the analysis of that portion of the Amario Papal Concordat that affects the Monastic Orders, give a foil escription of the Order in Hungary, and the general character assistined by the Monks.

We are publish this west as article from

The Rev Henny Ward Beechers, the being a continuation of his reely to The Evangelist's own words) the most "sire thing" and 'annih lating" thing of the kind ever permed. It convicts The Evangelist's own words) the most "sire thing" and 'annih lating' thing of the kind ever permed. It convicts The Evangelist of currageous perventions of the truth. As Mr. Beecher says careful men. It would be wrong to hold a man to severe account for single, simple literary errors. But when the concurrer of a religious journal, in an attempt to destroy the credit of a book, essentially and continuously perverts the truth by an utter readlessness of exatemant, or sking charge upon charge without foundation; adding error to error, misstatement to misstatement; and that to upon matters of fact that night be accert and by simple counting, and by the least degree of care in reading;—when such arrors, being exposed are effected, and others added to them, including not only haste and intention, but such an anxiety to do mischief as makes a man recliess—them, at length justice requires that such a case should be exposed.

And it is expised. Numerous instances are given wherein The Evangelian stands convicted of uttering what is positively unit us.

THE LIFE AND WORKS OF GOETHE,

THE LIFE AND WORKS OF GOETHE,

SKETCHES OF HIS AGE AND CONTEMPERARIES.

(From Published and Unpublished Sources.)

BY G. H. Lawss,

Author of "The Biographical History of Philosophy," &c.

"Goethe's heart, which few knew, was as great as his intellect, which all knew."

In two volumes, 16mo. \$2.50.

"A more faithful and literike biography than this we have rarely read. The image of the living man is presented with much skill and much candor. Mr. Lewes speaks often of the many sidednesses of Goethe, and he shows his wetk sides and dark sides are seen to be great and brilliant ones, which we sail lives. If the reader does not form the same high estimate of Goethe the man or as Goethe the author, it will not be from want of ample materials for founding a judgment. He whole history is here laid open, and the facts are derived not from books only, but from the testimeny of those who knew the man, and from other authentic sources of information."
